

One Month Profit Sheet

One finished month. Add, subtract, and know the real number.

MONTH

HOURS IT TOOK

Pick a month that already **finished**. Not this one while it's still moving, and not a good week. Add up what came in, add up what the hustle cost you, then subtract. A rough number beats a perfect one you never work out.

MONEY IN every payout, every platform, every deposit

Platform write which one		\$	_____
Platform write which one		\$	_____
Platform write which one		\$	_____
Anything else cash, tips, a one-off job		\$	_____
Total that came in		\$	_____

WHAT IT COST YOU the ones that go missing

The item itself even if it came from your own closet		\$	_____
Platform and payment fees check the statement, not your bank		\$	_____
Shipping you paid only labels you bought, not buyer-covered		\$	_____
Shipping supplies divide the pack by the sales it covered		\$	_____
Mileage and post office runs trips _____ x the current federal rate		\$	_____
Subscriptions and tools anything renewing monthly for the hustle		\$	_____
Returns and lost packages the refund plus shipping you don't get back		\$	_____
Anything else the one only your hustle has		\$	_____
Total that went out		\$	_____

PROFIT money in minus money out		\$	_____
---	-------	----	-------

Per hour profit divided by the hours up top		\$	_____
---	-------	----	-------

THREE MONTHS IS A PATTERN one month is only a snapshot

MONTH \$ _____	MONTH \$ _____	MONTH \$ _____
Average \$ _____	Lowest \$ _____	Highest \$ _____

Keep the number even when you don't like it. A month you refuse to look at still happened, and you can't plant against a number you're avoiding.
