List It Today

Your closet reselling starter sheet.

Pick five things you never wear, work down this page, and list one before you close the app. Each listing is a **seed**. Some sell fast, some sell later, and every one clears a little space.

1 THE SIX-STEP LISTING FLOW

- [ ] **Pick five things** you haven't worn in a year. Start with the easy nos, the clear "no" items. Don't agonize.
- [ ] **Photograph them in daylight.** Natural light near a window, plain background, a few angles. Good photos do most of the selling.
- [ ] **Write a plain, true description.** Brand, size, condition, any flaws. Naming a small flaw builds trust and cuts returns.
- [ ] **Price it to move.** Check what similar sold items went for, then price a little under the hopeful number.
- [ ] **List on one platform.** Just one to start. Expand once the first few sell.
- [ ] **Ship promptly when it sells.** A quick, tidy package earns good ratings, and ratings sell your next item.

Resell or donate? If listing it would take **longer than the item is likely to earn**, donate it. Both clear the space, and that's the real win.
